

# Raised Pedestrian Crossing

Safe Crossing for ALL people, ALL the time

The crossing is on a wide speed bump. Its flat top is on level with the sidewalk for ADA access. A bridge at each end lets rain and snow pass below.

This will benefit seniors who need to cross the street when it rains or snows. Wheelchair-bound neighbors who need to find usable ramps, Everyone who needs to cross the street safely, without fearing for their lives because of turning vehicles.

This will fund a prototype at West 45<sup>th</sup> Street and 9<sup>th</sup> Avenue (west side) where two seniors were killed by turning trucks
